ABOUT ME

I'm a front-end developer with experience and good knowledge in creation SPA by using React, Redux, TypeScript, JavaScript, SCSS and HTML.
I'm self-disciplined and adaptable, attentive to detail, good team player with perfect communication skills.
I am interested in project work and full-time employment.

Currently I am seeking a front-end developer position within a company with a modern approach to development and a collaborative team that will help me to improve my skills and abilities in the IT field to ensure company's success.

I see myself as a full-stack developer in the near future and therefore strive to expand my competence and to eventually study Node.js.
In my free time I enjoy studying new technologies, programming tutorials, solving tasks on Codewars and improving English language skills.

SKILLS
